- ☐ Start Date, Start Time

**Call: 1-800-272-1000**  
 24 Hours a Day / 365 Days a Year

Residents, Contractors  
 and Anyone Planning  
 to Dig in New Jersey

**CALL  
THREE FULL  
BUSINESS DAYS  
BEFORE  
YOU DIG**

**CALL BEFORE YOU DIG!**

This phrase is the theme of the One-Call Program in New Jersey, but more importantly, it is part of an important safety campaign for residents, contractors and anyone planning to dig in New Jersey.

This brochure is aimed at providing essential information to you before you dig to ensure safety for you and others. This guide will tell you what happens when you call, and when you don't. The brochure also helps to substantially decrease the likelihood that underground utilities might be damaged by excavation.

Join us in this important campaign to protect life and property.

Sincerely,

Jeanne M. Fox  
 President, BPU
