

Community Meeting

February 27/March 4, 2025

Project Team and Introductions

City Planner **Alycia Cohen**

Community Engagement Courtenay Mercer, AICP, PP

Equity, High Injury Network, Crash and Safety Analysis Carlos Bastida

Today's Agenda

- 1. Introductions
- 2. Project & Safe Streets for All Overview
- 3. Equity and Safety Analysis
- 4. Next Steps
- 5. Discussion

Discussion

- What's working?
- What could be improved?
- Vision for the future...

What's your vision for getting around Essex County safely in the future?

Safe Streets for All Action Plan

Essex County, in collaboration with the City of East Orange, is initiating the Essex Safe Streets for All (SS4A) Action Plan Project to improve roadway safety throughout the County.

Reduce the number of roadway fatalities and serious injuries within Essex County

Enhance safety, mobility, and quality of life for all roadway users – bicyclists, pedestrians, motorists, transit users, and people of all ages and abilities

Develop a Safety Action Plan with a list of strategies and priority projects

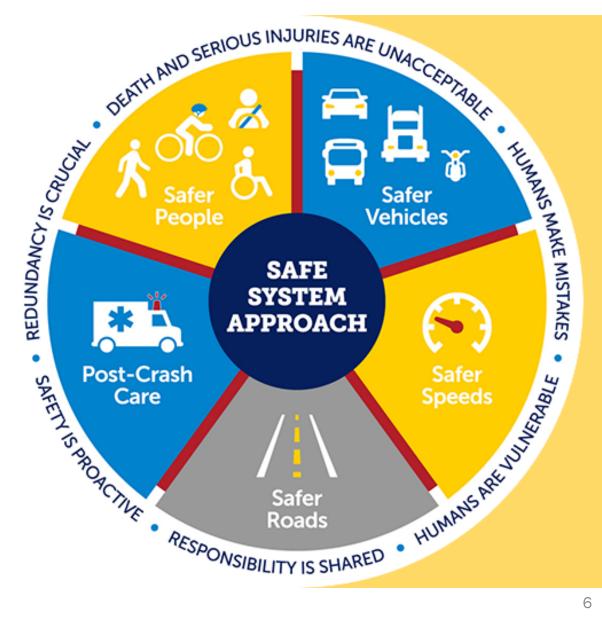

Safe System Approach - Principles

USDOT has adopted the Safe **System Approach as the guiding** framework to address roadway safety:

- → Design for human mistakes/limitations
- → Prevent deaths and serious injuries
- → Shared responsibility among stakeholders
- → Proactively identify and address safety risks
- → Redundancy is critical

5 Elements of Safe System Approach

Safer Road Users

Safer Vehicles

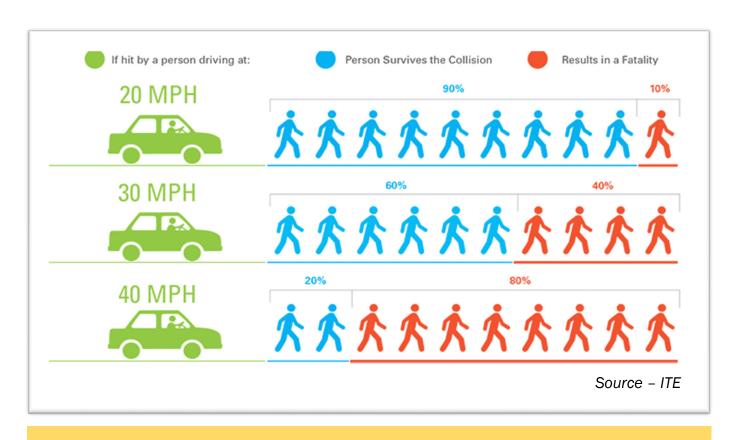

Safer Speeds

Safer Roads

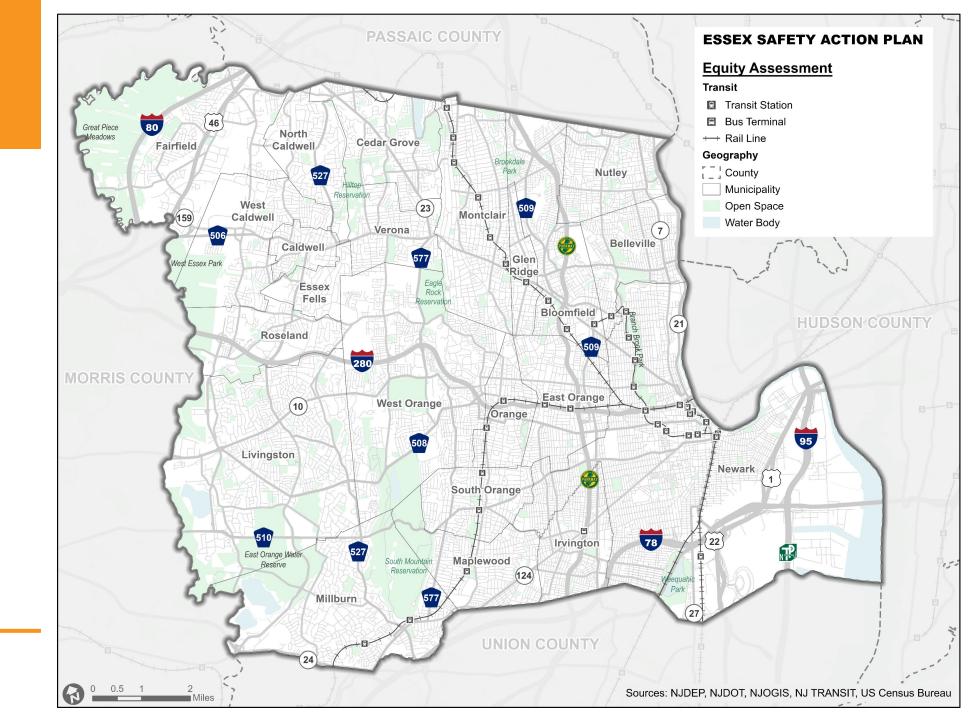

Post-Crash Care

The risk of death for pedestrians increases substantially as the impact speed increases. From 2013-2022, 22% (1,338) of New Jersey's roadway fatalities were speeding-related.

Project Scope

- DataCollection –Systemwide
- Project
 Selection –
 Key Safety
 Corridors
 identified in the map

SUMMARY OF INITIAL FINDINGS

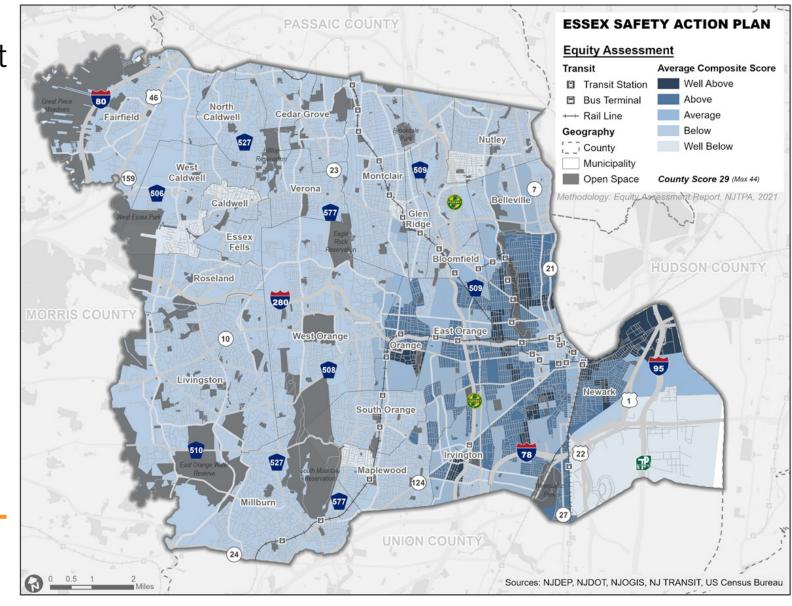

Underserved Communities: Essex County

- Essex County's composite equity score ranks first out of NJTPA region's 13 counties
- Primarily in the eastern and heavily urbanized portions of Essex County
- Highest indicators: minority, lower-income, foreign-born, low English proficiency, and zero-car populations

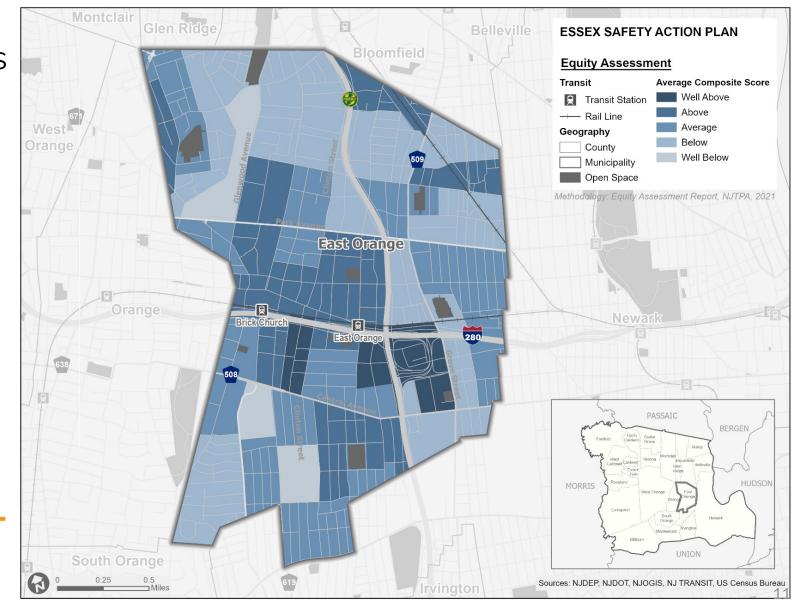

Underserved Communities: City of East Orange

- Ranked 3rd of 22 Essex municipalities, below cities of Newark and Orange, comparable to Irvington
- Primarily concentrated around I-280 and the Morris & Essex rail line
- Highest indicators: minority, lower income, foreign born, low English proficiency, and zero-car populations

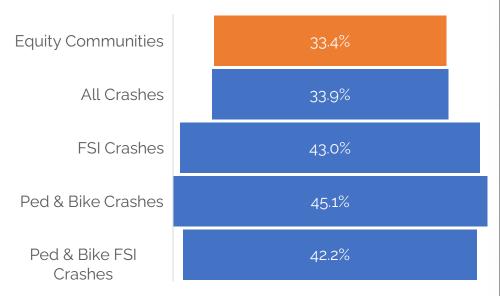

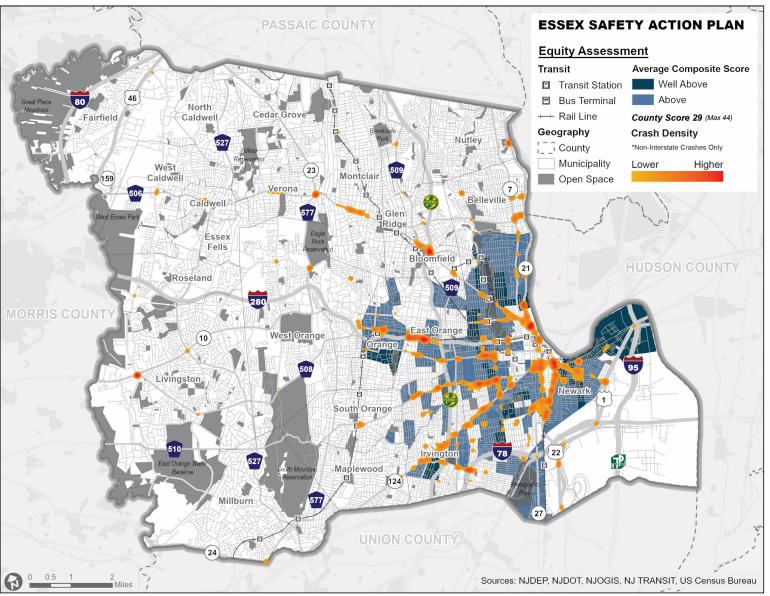

Crash Hot Spots & Equity: Essex County 2018-2022
